## WORK EXPERIENCE

### Business Technology Analyst Deloitte Consulting USI

06/2018 – Present

Application Modernization Studio

*Achievements/Tasks*

- Involved in the design and development of the Modernization products suite which helps our clients to move away from the Legacy Mainframe systems to Cloud.
- Involved in designing and development of mining product which helps in visualizing all the relationships and dependencies of mainframe code before migrating the application.

### Associate Software Engineer Tech Mahindra

02/2017 – 06/2018

*Achievements/Tasks*

- I worked on project Neon which is a comprehensive, unified delivery management solution & operations platform empowering entire life-cycle right from the program startup to delivery. Designed scalable to support various software methodologies, project types and business units. On-boarding & single-digital-profile of an employee and a gamified approach to driving behaviour. Survey and analytical tools to capture customer feedback under the principle of proactive-is-better-than-reactive fashion. Architected as the platform of multiple work-spaces and several apps through the web, mobile (Android, iOS and Windows) and standalone PC apps.

## EDUCATION
